# Core Assessment Table:

## Justifying Non-Core Competencies (Must Be Gov't)

| Subprocess | Justification |
|---|---|
| Requirement Generation | Operational Requirements |
| Acquisition | Acquisition |
| Facilitate | Oversight & Management of Contractor-based staffs at Simulation Centers |

# Risk Assessment Table: Direct Effect on Operating Forces

| Subprocess | Justification for “M” or “H” Risk |
|---|---|
| Requirement Generation | Develop requirements for systems, Programs, and support for training activities. Resource sponsor. TECOM civilians and military. |
| Acquisition | Manage acquisition of all training systems and support used by operational forces. MARCORSYSCOM personnel. |
| Facilitate | Training directors of exercises and training events using training technology. Onsite management of training support contractors. MEF military and civilian personnel. |

# Risk Assessment Table: Criticality Assessment

| Subprocess | Impact of this subprocess' failure |
|---|---|
| Requirement Generation | Training systems would lose currency with training requirements. Training system resources would evaporate. |
| Acquisition | Systems' procurement and support would cease, causing immediate readiness impact. |
| Facilitate | C2 and Staff training programs would cease, causing immediate readiness impact. |

# Risk Assessment Table: Military Performance Rqmt

| Subprocess | Why Civ/Mil Reqd? |
|---|---|
| Requirement Generation | Resource sponsorship. SME in current and future training program direction of Marine Corps. Oversight role. |
| Acquisition | SME in military activities supported by training systems and Programs. Legal strictures on acquisition. |
| Facilitate | SME on C2 and staff training directions of operational forces. Contractor oversight duties. |
